

Mobile equipment gets its own annex; farm and cooling equipment drops to the 15% floor

How the 8 June 2026 proclamation moves Section 232 derivative products | Sized by 2024 US import value

Annex I-C: 25% general, 15% framework partners, 10% floor for US metal, value-based formula for USMCA goods. Product counts at the HS 8-digit matching grain; scope-ins (steel racks, lithographic plates) are upper bounds at that grain. Trade: 2024 US general customs value (USITC).
